

National Board for Certification of School Nurses

Greetings NCSNs:

It's hard to believe but it is March already and school will be out before we know it. The NBCSN Board understands how busy everyone is and we know that time is precious. We are, however, looking for volunteers to serve with us on some of our committees. This is a wonderful opportunity to learn more about how the board works and what is involved in making the NCSN credential.

Current opportunities include an Exam Form Review, a Pool Review, Problem Item Analysis calls, and the Recertification Committee. Please visit our [website](#) to find descriptions for each of these activities.

In addition to helping the board and giving back to the NCSN community you will earn recertification credit for any of the review activities. Travel and accommodations are paid for by NBCSN.

If you are going to the NASN Conference, the NBCSN Pool Reviews is held on the NASN Conference Pre-Conference day so your travel and one nights lodging as well as meals would be covered, saving you some conference expense. Please consider volunteering for one of these opportunities. If you volunteered last year and were not able to serve on a panel, contact NBCSN at certification@nbcnsn.org and let us know if you are still interested.

Sincerely,

NBCSN Board of Directors.
